Parental Responsibility

Who has parental responsibility?

A mother automatically has parental responsibility for her child from birth. However, the conditions for fathers gaining parental responsibility vary throughout the UK.

For births registered in England and Wales

In England and Wales, if the parents of a child are married to each other at the time of their birth, or if they have jointly adopted a child, then they both have parental responsibility. Parents do not lose parental responsibility if they divorce, and this applies to both the resident and the non-resident parent.

This is not automatically the case for unmarried parents. According to current law, a mother always has parental responsibility for her child. A father, however, has this responsibility only if he is married to the mother when the child is born or has acquired legal responsibility for his child through one of these three routes:

- (From December 1st 2003) by jointly registering the birth of the child with the mother.
- By a parental responsibility agreement with the mother.
- By a parental responsibility order, made by a court.

Living with the mother, even for a long time, does not give a father parental responsibility and if the parents are not married, parental responsibility does not always pass to the natural father if the mother dies.

All parents (including adoptive parents) have a legal duty to financially support their child, whether they have parental responsibility or not.

For births registered in Scotland

A father has parental responsibility if he is married to the mother when the child is conceived, or any time after that date. An unmarried father has parental responsibility if he is named on the child's birth certificate (from May 4th 2006). Alternatively, unmarried fathers can also be named following a re-registration of birth.

For births registered in Northern Ireland

A father has parental responsibility if he is married to the mother at the time of the child's birth. If a father marries the mother after the child's birth, he has parental responsibility if he lives in Northern Ireland at the time of the marriage. An unmarried father has parental responsibility if he is named, or becomes named, on the child's birth certificate from April 15th 2002.

For births registered outside the UK

If a child is born overseas and then comes to live in the UK, the parental responsibility rules apply for the UK country in which they live.

Applying to the Courts for Parental Responsibility

A father can apply to the court to gain parental responsibility. In considering an application from a father, the court will take the following into account;

- The degree of commitment shown by the father to his child
- The degree of attachment between the father and child
- The father's reason for applying for the order

The court will then decide to accept or reject the application based on what it believes is in the child's best interests.

Photography and Use of Children's Images Policy

Kings Park Day Nursery are fully committed to the safety of the children in our care.

Aim

We understand that we will not place any child in a vulnerable position, and will be sensitive to the photographs and videos we take e.g. in bathrooms during hygiene routines such as teeth cleaning and hand washing etc.

At Kings Park day nursery photographs are taken of children and used for various purposes:

1. For recording activity participation and children's developing skills and interests.
2. Development records / child's learning journey
3. Displays within the nursery.
4. Special events / activity days
5. Christmas plays / Graduation ceremonies etc
6. Newsletters
7. Social media
8. Promotion / marketing

Consent will be gained for the above 1, 2, 3, 4, 5, 6 and 7 on enrolment at the setting.

For promotion / marketing purposes, extra permission will be sought at the time.

This policy is written in line with the General Data Protection Regulation (GDPR) 2018 and is linked closely with our safeguarding children policy, our confidentiality policy and complaints policy.

For the purpose of this policy **please see the following definitions:**

Photographer – An official photographer is anyone who is employed, commissioned or given consent by the setting to take photography, including staff and parents. Official photographers will be allowed to take photographs in any location directed by the setting's manager / owner.

Photographs – The word 'photograph' is used to refer to images in any format moving or still, recorded on any equipment (camera, video recorder).

Photographs by staff will be taken on nursery designated cameras and devices only.

Procedure

- All staff and students will be informed about this policy on induction and sign an agreement.
- Personal mobile phones or cameras are not allowed in the rooms - Staff members, students and other professionals visiting the setting are prohibited to take their own personal mobile phones or other devices in to rooms where children are present and phones are to be kept locked, within the staff room or office during working hours. Student phones, and those of visitors will be signed in and out of the office. Failure to comply with the procedure will be a breach of nursery policy and disciplinary action will be taken on individual staff members. The one exception to this is a managers company mobile phone in order to take photos for display or in order to email or upload to website or twitter. Photos will be deleted once used or in line with e safety procedures. Managers company phones and all other devices will have a secure lock code so if the phone is lost, data cannot be accessed. In the event of a phone being lost, they will be restored back to factory settings by The Hub as soon as possible to delete all information off the device.
- Parents / carers taking private calls will be asked to do so outside of the day care room where children are not present.
- To complete on line learning journeys on the children, iPads will be issued throughout the setting to staff. The settings on these will have been adjusted and blocked to ensure that staff can only access the necessary applications on them. These devices will be signed in and out from a

Photography and Use of Children's Images Policy continued

locked cabinet in the office at the beginning and end of the day, and kept safe during the day in a box within the rooms. If these devices are going off site, then senior staff only will sign them in and out of the building. All staff using these devices will sign to say they have read and understood this procedure. When laptops are going to be used with the children for research purposes, staff will conduct initial research in the office before doing so with the children to reduce the possibility of unwanted content. Staff will be aware of the types of words used when searching for content to limit the possibility of unwanted content.

- Settings will have a named e safety monitor. This monitor will be a senior member of staff and will be responsible for checking the photo stream every month on every device to ensure pictures are being deleted. They will also monitor device history and emails on every tablet and laptop. Managers company mobile phones will be checked by the director.
- I pads or other devices for use by the children will have the settings adjusted and parental blocks etc switched on to limit the access they have on them to applications such as the internet and games they use. All devices that can be, will be locked and used in child mode.
- Parents and carers are asked not to allow their child to bring in a mobile phone to play with and that they must not be left in their child's bags in the cloakroom area.
- In a parent's case, consent will be sought for their child to be included on recordings of Christmas plays etc. by other parents on enrolment. They can opt out at any time and this will be made clear on the consent form.
- If a photographer from an outside agency is coming into the setting, they will sign in and out of the visitors book, and a member of staff will stay with them at all times.
- As the children in our care are under 16 years old, permission will be sought from each parent / carer on enrolment – for pictures to be taken of their child for their own learning journeys and also to be on display for others to see around the nursery.
- It will be understood and included on the consent slip that photographs going onto individual children's learning journeys may include that of other children, (i.e. a photo / video including your child could go into another child's learning journey if they were involved in the same activity) and that people who have access to the setting eg other professionals, other parents and carers, students etc may see these still or moving images within the setting.
- Social media is used to communicate with customers, to promote the business, showcase the high quality care and education we provide, and to share good practice. Parents will be made aware that our social media pages are public. Names and identities will remain anonymous and all images used or uploaded by Kings Park day nursery will be sensitive.
- Once printed or uploaded, photographs or videos will be deleted off the hard drive in line with the e-safety procedures.
- Videos may be made of children, for example if a child is unsettled at the start of a session we may record the child to show the parent / carer the child later on happily playing. Once they have seen it, it will be deleted. Pictures of children during the sessions may also be emailed to parents off the nursery phone or computer with parents agreement.
- Extra permission will be sought if pictures are to be seen by anyone other than people involved with the nursery i.e. newspaper promotions, study purposes.
- If a photograph is being taken at a public event, it will be made clear the reason for the photograph, giving people the opportunity to opt out of being on the photograph.
- Parents are informed of our complaints policy and general data protection regulation procedures on enrolment.
